Professional Summary

MCA graduate with hands-on experience in **Full Stack Development** using **React.js, Node.js, Express.js, and MySQL**. Experienced in developing web applications, backend services, **RESTful APIs**, authentication and authorization systems, and responsive user interfaces. Strong foundation in **JavaScript, Java, SQL, OOP, DSA, DBMS, MVC architecture, and SDLC**. Seeking opportunities as a **Junior Software Engineer, Full Stack Developer, Backend Developer, or Software Engineer**.

Education

MET Institute Of Engineering, MET Bhujbal Knowledge City, Nashik	2024 - 2026
• Master's degree in Computer Application	
RNC Arts, JDB Commerce, NSC Science And Computer Science College, Nashik	2021 – 2024
• Bachelor of Science in Computer Science: 8.36 CGPA	

Skills

- **Programming Languages:** Java, JavaScript, SQL,C & C++, Python
- **Frontend:** HTML, CSS, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, MySQL
- **Tools & Concepts:** Git, GitHub, Postman, Vercel
- **Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), MVC Architecture, Computer Networks, DBMS

Projects Experience

HealthFreak – AI Powered Medical Voice Agent with Smart Health Tracking	Nov 2025 - Jan 2026
• Designed and developed an AI-powered healthcare assistant featuring real-time voice communication , symptom analysis, and AI-generated medical guidance.	
• Integrated Speech-to-Text, Gemini API , and Google Fit health tracking to enable natural medical conversations, smart health monitoring, and emergency alert functionality.	
• Implemented additional modules including Nearby Hospital Locator, SOS emergency system , and AI chatbot-based symptom checker , improving accessibility and healthcare responsiveness.	

AI Powered Mock Interview	Sept 2024 - Nov 2024
• Developed an AI-driven mock interview platform simulating real-time interview experiences with speech-to-text and text-to-speech interaction.	
• Integrated dynamic job-specific question generation using AI models and implemented real-time conversational workflows for interview practice.	
• Built responsive frontend and backend modules supporting voice-based interaction , interview feedback flow, and interactive UI components for enhanced user experience.	

Internships & Certifications

Aquil Tech Labs	
FullStack Developer Intern	Jan 2026 - Jun 2026
– Developed a construction management web application using React.js, Node.js, Express.js, and MySQL for managing projects, bids, clients, and employees.	
– Built and integrated RESTful APIs to support project tracking, employee management, and reporting functionalities.	
– Implemented secure user authentication using JWT, RBAC, and OTP-based password reset to improve application security.	
• Java Fundamentals – Oracle Academy (Nov 2025) Learned Core Java & Object-Oriented Programming concepts.
